

Quick Vision Check-In

A gentle, practical tool to pause, reflect, and realign.

A Tool for Gentle Alignment (& Real Conversation)

Are we heading where we truly want to go?

This **Quick Vision Check-In** is a 1-page reflection tool you can use alone, or with your leadership team. It's not a test. It's not a scorecard.

It's an invitation.

You'll find 6 key dimensions that often show up in visionary school districts — and for each one, you'll simply mark:

- **Green** – Feeling strong and aligned
- **Yellow** – Some clarity, but some wobbles
- **Red** – Needs attention or isn't yet defined

It's that simple. But the conversation it opens? That's where the insight lives.

The Six Vision Dimensions:

Here's what you'll reflect on in the worksheet:

<input checked="" type="checkbox"/> Leadership Alignment	colour _____	date _____
<input checked="" type="checkbox"/> Community Trust & Connection	colour _____	date _____
<input checked="" type="checkbox"/> Clarity of Strategic Direction	colour _____	date _____
<input checked="" type="checkbox"/> Staff Engagement & Voice	colour _____	date _____
<input checked="" type="checkbox"/> Room for Innovation	colour _____	date _____
<input checked="" type="checkbox"/> Student-Centered Focus	colour _____	date _____

No need for perfect answers — just honest ones.

How to Use This:

- Start your next team meeting with a quiet 5-minute check-in using this tool.
- Reflect on one dimension a week during leadership huddles.
- Use it solo to get clearer before your next board conversation.

You'll be surprised what surfaces when you slow down just enough to listen.
